PROJECTS

Platos

[Platos.social](#)

Python project allowing people with similar schedules to find others in their areas to connect with.

Adoptagram

-In development-

Ruby project to simplify the animal adoption process. Provides agencies with the opportunity to share photos and a one stop shop for users to apply to adopt or foster animals.

Profile

Full-Stack Web Developer with keen analytical skills, a creative mindset, and a thorough understanding of coding dynamics. Developed proficiency in building and deploying applications in MEAN, Python and Ruby on Rails. Enthusiastic and effective communicator seeking to contribute my diverse skill set to an inspiring project and grow as a developer.

Technical Toolbox

Front-End Development

HTML5, CSS3, jQuery, Bootstrap, Ajax, HTTP Request/Response

Python

MySQL, SQLite, Flask, Django

Ruby

Rails, RSpec, Capybara, PostgreSQL, Active Records

Mean

NoSQL (MongoDB), Mongoose JS, Express, Angular JS, Node.js, NPM, Socket.IO, Bower

General Skills

Version Control, Git/GitHub, Wireframe & Mockups, Responsive Web Development, Object-Oriented Programming, MVC Frameworks, CRUD Operations, Test Driven Development, RESTful Architecture

Experience

Coding Dojo - Full-stack Web Development Bootcamp

2017

An immersive full stack development program. Graduated with a Black Belt (highest earning of achievement) in the Python, Ruby on Rails, and MEAN Stack with over 1000 hours of coding experience, and a working proficiency in JavaScript, HTML, and CSS as well as a wide range of other frameworks and libraries.

- Ability to develop a web app from scratch, back-end to the front-end and finally to deployment
- Expertise in RESTful routes, CRUD operations, and API integration
- Knowledgeable in SQL and NoSQL ERD diagrams to establish connection between multiple datasets

Wegmans - Front End Customer Service

2015-2017
